Deborah,

This is to update you on upcoming Region 1 NPDES actions. Let me know if OW has questions. This is the third of four updates.

South Essex Sewer District (SESD) Final Permit – We are prepared to sign the final permit. MassDEP is not signing the permit because it includes co-permittees. MassDEP signed a 401 certification. (b)(5) -

(b)(5) - Deliberative It has been out to public comment twice in 2008 and 2013, and was last issued on 2001. (b)(5) - Deliberative

(b)(5) - Deliberative Comments were received on the water quality classification, the dilution analysis, mass-based limits, the effluent flow limit, the TRC limit, the % removal BOD and TSS requirement, the pH limit, and the inclusion of satellite collection systems as co-permittees. The permit will also allow us to terminate an historic, backlogged permit for an SSO from one of the satellite collection system communities.

Let me know if you have questions,

David Webster
